Leadership Retreat

Anugraha Leadership Retreat activities develop fitness of mind and body. It will help participants through dedication and practice to transform themselves, their organisations, families, and environments, resulting in continuous learning and value creation.

As leaders, we are responsible for creating environments in which people are nurtured and inspired, such that our organisations learn and grow, our families excel and communities are respected and supported.

We are distracted by the urgent at the expense of the important. We are so pre-occupied with yesterday and tomorrow that we are unable to excel at leading in the present. What you need is time to step up, to reconnect with your core competencies, goals, and values. Imagine working with a highly productive team, driven by a shared vision and a deep sense of cohesion.

The Retreat is totally activity-based and these are designed according to your needs and aspirations. The initiative employs a unique delivery model. It uses effective and innovative tools of leadership value-clarification. People are guided to discover and fully use their core strengths and natural intelligence.
