

If you have the **Courage**  
to imagine, we have the  
**commitment to**  
**mentor** you and unleash  
your potential.

## Coaching and Mentoring

*The learning center empowers you to choose the right learning project according to your learning ability. It comprehensively addresses self-growth, family excellence, professional growth and social awareness. With us you will pull the freedom to be the master of your own destiny. We just play the role of mentoring you to excel in the chosen interest and the project.*

Students | Faculty resources | Institutions | Parents

As a part of our continuous endeavour in creating value-based learning experiences, we offer **Anugraha Learning Center** - an innovation that is aimed at giving you the power of choice - in real terms.

Over the years, our efforts have been creating some of the finest leaders in Indian society. From client feedback we know that our mentees are the products of a well-balanced curriculum that relies on value-based learning which is continually bench-marked against the holistic requirements of society.

We do not teach people, but create a situation that empowers them to experiment with their choices in respect to values, which are essential for developing a greater and better individual, family, and society. Students, Faculty resources, Institutions and Parents are mentored to challenge head-on a situation that requires a leadership role.

With us, people have learnt from some of the challenging and demanding situations, and not from any teachers. They are life-ready commandos, who regularly interact with razor-edge situations. They are ready to challenge change and play the right role in their success story.

**TAKSHASHILA**

### The Learning Model -

The learning is based on “Project Leadership Platform”. The model empowers the learner to choose the right learning project according to his/her learning ability. The learning projects comprehensively address self-growth, family excellence, professional growth, and social awareness. With us, the learner exercises the freedom to be the master of his/her own destiny. We just play the role of mentoring them to excel in their chosen interest and the project.

The learning model is multi-disciplinary: It is constructive, experiential, inquiry-based, creative, self-directed and problem-solving. We help students, faculty resources, institutions and parents work in an inter-disciplinary and interdependent environment, connecting learning to real-life experience. We strive to illuminate minds through the negotiation of challenging situations. It will be a learning experience so real that learners never forget. We follow interactive and experiential learning solutions that combine inspiring content and challenging activities.

The initiative comes with a definite purpose. It addresses multi-faceted requirements. With us you learn to balance your career between self-growth, family excellence, professional growth, and a definite social awareness. Yes! We create an opportunity that goes beyond education for creating a life-ready professional.

### The Learning Method -

We ensure that there is a balance between understanding concepts and actually applying them to real-life situations. Learning is largely interactive and based on case studies, role playing, live projects and problem-solving activities. Learning is delivered through, Seminar | Workshops for small groups | One-on-one coaching and mentoring | Anubhuthi: Experiential and activity-based outbound learning initiative.
